Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 15-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Vild et al. Vild et al, in the claims for example, teaches a molten metal submergence device including a vortex breaker in the form of a ramp, a submergence chamber with an inlet on a side wall thereof and an outlet showing all aspects of the above claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gordon et al'583 is also cited as a further example of prior art molten metal submergence systems.
